CLIENT TESTIMONIALS:

"Propositions has proven to be a trusted and irreplaceable partner in our training initiatives at Union County. Their guidance and recommendations have contributed to our goal of providing exceptional training opportunities to our employees. We believe that DashTrain is the leader in the marketplace for microlearning delivery and content."

- DONNA D'ALESSANDRO, TRAINING & DEVELOPMENT COORDINATOR

"When we had to reorganize, we did not have an adequate HR staff to handle our needs. Propositions helped us by mapping out a strategy, consulting with our leadership team, training our managers, and finally assisting with the actual event. They then took over with their program, and the feedback from our former employees has been excellent. We now have their 'e-transition' system as a part of our talent management capability, and it is working extremely well. The Pro in their name says it all."

- ANN SCHARM, VP OF HUMAN RESOURCES
